

# OCEAN BLAST

## All About Submarine Volcanoes

**Tuesday, July 12 at 6:30pm at the Midway Branch Library**

(Adults) Discover what is going on under the ocean as Dr. Haley Cabaniss shares her experiences and research with submarine volcanoes. These fissures in the Earth's surface account for 75% of magma output on the Earth. Learn where the most active submarine volcano is currently spewing magma. Please call (859) 846-4014 to sign up.
